

ScreenMeet Remote Support

ScreenMeet Remote Support improves the customer and agent experience in the contact center and IT Help Desk with better remote takeover. Browser-based, there is NO download required for the Agent.

Designed for IT analysts and support agents to have complete remote support capabilities.

ScreenMeet's prebuilt integrations with Salesforce, ServiceNow, Microsoft Dynamics, and others means it is simple to install, deploy and manage.

Our Zero Trust Security Architecture means authentication and data storage is handled by the 3rd party platform.

ScreenMeet delivers 35% increase in First Contact Resolution for the world's largest tech companies.
